The Ecological Framework
Joyce Mbogo MD FAAP
Definition

• Ecological” means multiple levels, beyond the individual.

• An ecological approach focuses on both population-level and individual-level determinants of health and interventions
Ecological Model

Public Policy: national, state, local laws and regulations.

Community: relationships between organizations.

Organizational: organizations, social institutions.

Interpersonal: families, friends, social networks.

Individual: knowledge, attitudes, skills.
GROUP WORK

Priority Areas
