SUMMARY

- What is KEPRECON
- KEPRECON’s ROLE
- KEPRECON Membership
- KEPRECON Projects
- KEPRECON Goals
- 2017 Donors
WHO IS KEPRECON

- Kenya Paediatric Research Consortium (KEPRECON) is a research arm for Paediatric Association (KPA) registered as an NGO.

- KEPRECON was registered to support the association in scientific activities outside the realm of a civil society organization. This allows the organization to enjoy the large and widely spread membership with ability to participate in research and service projects led by KEPRECON.
WHAT IS KEPRECON

- The consortium has strong membership from academia; Department of Paediatrics in the 3 local universities, available as think tank.

- KEPRECON also bonds strongly with seasoned research organizations like KEMRI Welcome Trust Research Program whose collaboration the consortium develops health care guidelines and job aids.

- KEPRECON leverages for KPA in engagements with relevant government departments. KEPRECON enjoys strong advisory governance, high caliber leadership supported by a very efficient secretariat.
KEPRECON’s ROLE

- Application of grants
- Manage grants
- Partnership with MoH and other Stakeholders in National Policy and Advocacy
- Mentorship of Health Care Workers
- Facilitation of Experience Exchange Meetings
KEPRECON’s PROJECTS

- KEPRECON is involved in many research projects that are headed by different principal investigators.

- The person who writes a grant is given the opportunity to oversee the project implementation and is supported by the secretariat.
KEPRECON MEMBERSHIP

- The subscribers to the organization are paediatricians, health workers and other professionals with experience in child health research.

- Any paediatrician desirous of being a member of the organization shall apply to the board in writing. On approval the membership will have to be ratified at the next annual general meeting.
KEPRECON GOALS

- Expanding project portfolio
- Incorporating high level grant writers
- Grant writing capacity building for KPA members
- Development of a Master plan
